### Immersion in Vezo country

A one-day trip to discover the life of Vezo villagers and marvel at the baobab forest.

Departure from Five Senses Lodge 8.30am

9.30am: Arrival at the village of Andranova by the sand track which skirts the sublime lagoon. With its huts nestled at the foot of its dunes, Andranova is a typical Vezo fishermen village. Climb to the summit of the great dune with all the children of the village who will be delighted to pose, in order to discover the breath-taking beauty of the splendid lagoon with its green camaïeux.

10.30am: Arrival at the small forest of baobabs and discover the more stout variety of *Adansonia grandidieri*. Their colours and their strangest shapes, in the midst of didiéracées (large thorny plants, endemic to Madagascar, nicknamed the “cactus of the One World”) are a real enchantment.

11.30am: Picnic organised by Five Senses Lodge at Reve et Nature, the ideal exquisite location. Get ready to be fully immersed and mesmerized by the 100% natural wonders of this secret place, closed at high tide. Swimming is a must (with or without swimwear).

2pm: Return to Five Senses Lodge.

3.30pm: Arrival at the hotel for a sundowner snack.

**NB :**

- This activity can only be done in 4x4, accompanied by a guide.
- This excursion is possible in all seasons.
- The schedules indicated for this excursion are estimated and therefore variable.
